

LearnHub

Document 7: UI Mockups

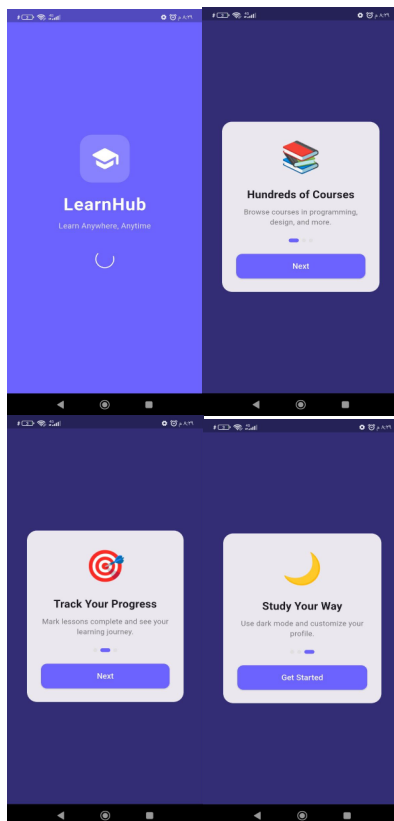

Prepared by: Eman Al-Aodat | Mobile Application Development Course

UI Mockups – LearnHub Screens

This section presents text-based wireframe mockups for all primary screens of the LearnHub application. Each mockup is accompanied by a list of UI elements and design decisions.

1. Splash Screen & Onboarding

The splash screen displays the LearnHub logo and tagline on a purple background. On first launch, a 3-step onboarding dialog guides the user through key features before entering the app.

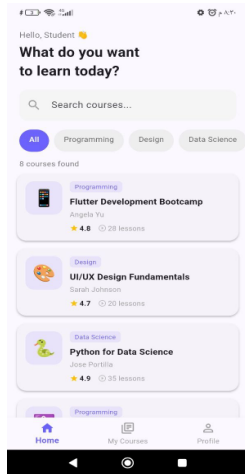

Screen Elements:

- LearnHub logo (book icon) centered on purple background
- App tagline: 'Learn Anywhere, Anytime'
- 3-step pagination dots (active dot highlighted)
- Onboarding card with icon, title, and description per step
- Navigation buttons: 'Next' and 'Get Started' on last step
- Stored in SharedPreferences to show only once

2. Home Screen — Course Catalog

The home screen greets the user by name and presents all 8 courses in a scrollable ListView. A real-time search bar and category filter chips allow quick discovery.

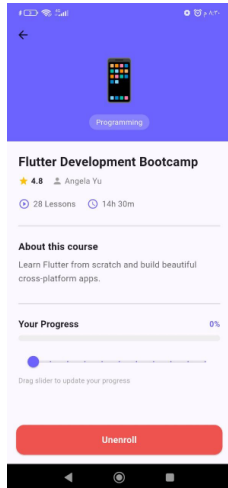

Screen Elements:

- Personalized greeting with user's name
- 'What do you want to learn today?' headline
- Real-time search bar with live filtering
- Category chips: All, Programming, Design, Data Science, Business
- Course card: thumbnail icon, title, category, rating, instructor, duration
- Enrollment badge shown on enrolled course cards
- Bottom navigation bar: Home, My Courses, Profile

3. Course Detail Screen

Tapping a course card opens a dedicated detail screen with full course information, a progress tracking slider, and the enroll/unenroll button.

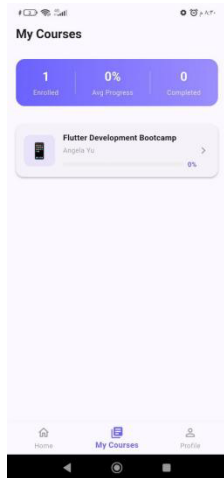

Screen Elements:

- Back navigation arrow
- Course banner image/icon with category chip
- Course title, star rating, instructor name
- Lesson count and total duration
- 'About this course' description section
- Interactive progress slider (0–100%) with % label
- Hint text: 'Drag slider to update your progress'
- Prominent Enroll / Unenroll button (color-coded)

4. My Courses Screen

The My Courses screen shows all enrolled courses with visual progress bars and summary statistics at the top.

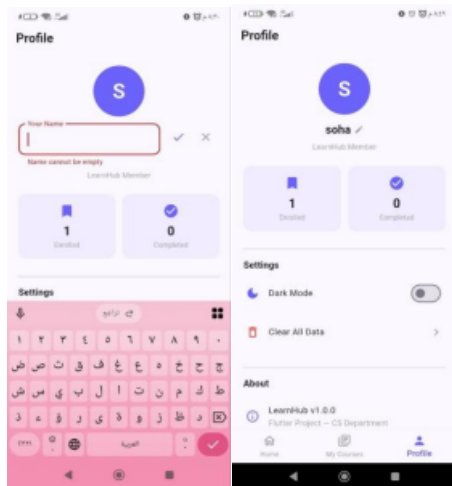

Screen Elements:

- 'My Courses' screen title
- Summary card: enrolled count, average progress %, completed count
- Enrolled course list with: course icon, title, category
- Linear progress bar per course with % label
- Empty state illustration when no courses enrolled
- Tapping a course navigates to its detail screen

5. Profile & Settings Screen

The profile screen allows the user to edit their name, toggle dark mode, and reset all data. An About section displays the app version.

Screen Elements:

- User avatar (initial letter in circle)
- Editable display name with pencil icon
- 'LearnHub Member' subtitle
- Stats: enrolled courses and completed courses count
- Settings section: Dark Mode toggle (on/off switch)
- Clear All Data option with confirmation dialog
- About section: app version and course info
- Form validation for name field (min 2 chars, not empty)

Design Specifications

Color Palette

Color Name	Hex Code	Usage
Primary Purple	#5B4FCF	Primary brand color, buttons, headers, active chips
Light Purple	#7C6EE0	Hover states, course banners, secondary elements
Background	#FFFFFF	Main background (light mode)
Dark Background	#121212	Main background (dark mode)
Surface Card	#F5F5F5	Course cards, input fields background
Text Primary	#333333	Main text color
Text Secondary	#888888	Subtitles, metadata, hints
Success Green	#4CAF50	Completed courses, success indicators
Warning Amber	#FFC107	Star ratings

Typography

- Font Family: System default (Roboto on Android, SF Pro on iOS via Flutter)
- Headline: 24sp Bold – Screen titles
- Title: 20sp Bold – Course names, section headers
- Body: 16sp Regular – Descriptions, metadata
- Caption: 14sp Regular – Hints, secondary info

Navigation

- Bottom Navigation Bar: 3 tabs – Home, My Courses, Profile
- Tab state preserved using IndexedStack (no rebuild on tab switch)
- Course detail accessed via Navigator.push() (full-screen route)
